Sprint 2 Report
Middle Ground
Middle Ground Team
4/20/21

Went Well	Could've Gone Better	Action Items
- Sprint task estimates were accurate and every task was delivered - Great scrum meetings that are short and informative - Active discussion - Documenting how to conduct tests on PR - Some unused code was committed but was promptly deleted	- Cluttering Git commits with unrelated code changes. Need to isolate commits that relate to a sprint task - Don't make one team member do all the code reviews - Styling of code was inconsistent	- Assign PR reviews to avoid the same person reviewing most PRs. - Formalize code styling guides (use the same linter) - Remove/don't commit unused code
